

An abstract digital artwork featuring a profile of a human head. The head is constructed from a complex, dense network of thin, glowing lines in shades of purple, blue, and green. These lines form a wireframe-like structure that suggests the contours of the face, including the forehead, nose, and jawline. The background is a dark, textured gradient, possibly representing a night sky or a digital void. The overall effect is one of intellectual complexity and digital connectivity.

M2. PORTRAIT OF A CRITICAL THINKER

OBJECTIVES

- To get acquainted with critical thinking skills and dispositions.
- To analyse “portraits” of personalities and to recognize their critical thinking traits.
- To evaluate one’s critical thinking skills and dispositions.
- To make list of critical thinking skills and dispositions to be improved.

CRITICAL THINKING SKILLS

- **Interpretation:** understanding and expressing the meaning or significance of a wide variety of experiences, situations, data, events, judgments, opinions, rules, procedures, or criteria. It includes categorization, decoding meaning, & clarifying meaning.
- **Analysis:** identification relations by the interlocutor among the statements, questions, concepts, descriptions, & any other forms of representation that he uses to express opinions, judgments, experiences, reasons, or beliefs. It involves: examining ideas, detecting arguments; and analyzing them.
- **Evaluation:** the credibility of statements or representations that are brought to support the perceptions, experiences, judgments, beliefs, or opinions issued by another person. It includes the evaluation of statements and the evaluation of arguments.
- **Inference:** formulation of hypotheses, evaluation of the consequences arising from data, statements, evidence, principles, concepts, opinions, beliefs, or other forms of representation. It includes: questioning the evidence, conjecture of the alternatives, & concluding.
- **Explanation:** justification of the contextual evidence what someone claims as a result. It includes justification of the procedures, & presentation of arguments.
- **Self-regulation:** conscious monitoring of one's cognitive activities, of the elements used in those activities, & of the results obtained, all of which is done through the analysis and evaluation of reasoning & inferences and through concentration. Self-regulation is done by calling on two skills: self-examination & self-correction.

CRITICAL THINKING DISPOSITIONS

- **Analyticity, confidence in reason:** inclination to build judgments on facts, evidence.
- **Truth-seeking:** non tolerance to lie, injustice
- **Intellectual courage:** a tendency to non-conformist thinking.
- **Open-mindedness:** openness to various ideas.
- **Intellectual empathy** – the tendency and attitude to understand others.
- **Clarity & accuracy:** inclination to express one's ideas clearly and accurately in order to be understood correctly, to avoid misunderstandings, misinterpretations.
- **Intellectual modesty:** awareness of the limitations of one's own knowledge and not boasting about them; opposite to intellectual arrogance.
- **Intellectual integrity:** thinking the same way in all situations.
- **Intellectual perseverance:** pursuing a goal despite difficulties.
- **Intellectual autonomy:** the ability to think on one's own when evaluating different points of view.
